Makwe Chidubem Joshua

UI/UX Designer / Product Designer

Product Designer with hands-on experience designing mobile and web application across fintech, Ai powered products, and digital platforms. Experienced in translating product requirements into structured user journeys, intuitive interfaces, and interactive prototypes. Contributed to building live fintech payment experiences and designing products that simplify complex user interactions. Skilled in Figma, interaction design, prototyping, and collaborating with developers and stakeholders to deliver functional digital products.

PROFESSIONAL EXPERIENCE

UI/UX Designer| Product Design

EasySpend (Fintech Startup) - Contract

May 2026 - July 2026

Designed the Paystack Request Payment Flow for Easy spend's mobile and web applications.

Designed the Stripe Payment Flow across mobile and web platforms.

Translated products requirements into user flows, wireframes and high fidelity interfaces designs in collaboration with the CEO and developers.

Structured payment interactions to make the request and payment journeys clear and easy to navigate.

Delivered production ready designs that are currently live.
